Assignment 2

1) A die is rolled, find the probability that an even number is obtained.

2) Two coins are tossed, find the probability that two heads are obtained.

3) A die is rolled and a coin is tossed, find the probability that the die shows an odd number and the coin shows a head.

4) A card is drawn at random from a deck of cards. Find the probability of getting the 3 of diamond.

5) A card is drawn at random from a deck of cards. Find the probability of getting a queen.

6) A jar contains 3 red marbles, 7 green marbles and 10 white marbles. If a marble is drawn from the jar at random, what is the probability that this marble is white?

7) The blood groups of 200 people is distributed as follows: 50 have type A blood, 65 have B blood type, 70 have O blood type and 15 have type AB blood. If a person from this group is selected at random, what is the probability that this person has O blood type?

8) A die is rolled, find the probability that the number obtained is greater than 4.

9) Two coins are tossed, find the probability that one head only is obtained.

10) A dice is rolled twice, find the probability that the sum is equal to 5.

11) Two dice are rolled, find the probability that the sum is

i. equal to 1

ii. equal to 4

iii. less than 7

12) If a dice is rolled once, what is the probability that

i It will show an even number?

ii It will show an odd number?

iii It will show a prime number?

iv It will show a multiple of 3?

v It will show a multiple of 1?

vi It will show a multiple of 7?

13) A deck of cards contains 52 cards, 13 from each suit. If a card is flipped over, what is the probability that it is a spade?

14) Three coins are tossed. What is the probability of getting

i. All Heads.

ii. Exactly one Head.

iii. At least one head.

15) A box contains 5 red, 3 white 6 blue balls. If 3 balls are drawn at random, determine the probability that

i. **All 3 are blue.**

ii. **2 are red and 1 is white.**

iii. **One of each colour is drawn.**

16) Four dice are thrown simultaneously. Find the probability that all of them show the same face.
